DETAILED ACTION

- 1. This action is responsive to communications: application filed on 12/29/2000.
- 2. Claims 1-22 are pending in the case. Claims 1, 2, 6, 8, 9, 12, 15, 17, 18, 19, 20, 21, and 22 are independent claims.

Election/Restrictions

- 3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-7 and 9-22, drawn to creating and editing documents and application enabled objects from within a place in collaboration space, classified in class 715, subclass 530.
 - II. Claim 8, drawn to preparing a custom theme for defining the layout and style of a place in collaboration space, classified in class 715, subclass 517.
- 4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as creating and editing documents and application enabled objects from within a place in collaboration space wherein the place has a standardized layout and is not customizable. In the instant case, invention II has a separate utility such as customizing the layout and style of a place in collaboration space for a collaborative web chat. See MPEP § 806.05(d).

Application/Control Number: 09/752,935

Art Unit: 2176

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
